NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended September 30, 2025, and 2024

(Unaudited: in Canadian dollars except as otherwise noted)

NOTE 1 – REPORTING ENTITY

New Stratus Energy Inc. ("New Stratus" or the "Company" or the "Corporation") is a publicly traded company domiciled in Canada. The Company was incorporated on April 12, 2015, under the Business Corporations Act (Alberta). The Company's registered office is 1500, 850 2nd Street S.W., Calgary, Alberta, Canada.

The Company's operations involve the acquisition, exploration, and development of oil and gas properties and, between January 14 and December 31, 2022, the operation and production of oil and gas deposits. These operations are subject to risks and challenges like those of companies in a comparable stage. These risks include but are not limited to, the challenges of securing adequate capital; exploration, development and operational risks inherent in the oil and gas industry; changes in government policies and regulations; the ability to obtain the necessary environmental permitting; challenges in profitable production or, New Stratus' ability to dispose of its interest on an advantageous basis; as well as global economic and commodity price volatility; all of which are uncertain.

NOTE 2 - BASIS OF PREPARATION

Statement of Compliance

These condensed consolidated interim financial statements, as approved by the Company's Board of Directors on November 28, 2025, have been prepared in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting, using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). Certain disclosures required by IFRS have been condensed or omitted in the following note disclosures or are disclosed or have been disclosed on an annual basis only. Accordingly, these condensed consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements for the years ended December 31, 2024, and 2023 ("annual financial statements"), which have been prepared in accordance with IFRS as issued by the IASB.

The financial statements have been prepared under the historical cost basis, except for certain financial assets and liabilities which are measured at fair value and are presented in U.S. dollars. They have been prepared on a going concern basis assuming that the Company will be able to realize its assets and discharge its liabilities in the normal course of business as they come due for the foreseeable future.

The ability of the Company to continue as a going concern is dependent on management's ability to secure additional sources of funding through equity issuance, debt arrangements, or asset sales and to generate sufficient cash flow from its current investments. While management is actively pursuing such financing arrangements and has taken measures to preserve liquidity, there can be no assurance these efforts will be successful or sufficient to meet the Company's short-term obligations and capital commitments.

These material uncertainties cast significant doubt upon the Company's ability to continue as a going concern. The consolidated financial statements do not reflect the adjustments that would be necessary if the going concern assumption were inappropriate, such as the realization of assets and settlement of liabilities in amounts other than those reported. Such adjustments could be material

NOTE 3 – SUMMARY OF MATERIAL ACCOUNTING POLICIES

Consolidation

The material accounting policies are the same as those applied in preparing the annual financial statements for the year ended December 31, 2024. Details regarding the Company and its principal subsidiaries as of September 30, 2025, are as follows:

Entity	Property /function	Registered	Interest as at September 30, 2025 and 2024	Functional currency
New Stratus Energy Inc.	Corporate	Canada		CA
Petrolia Ecuador S.A.(Spain)	Ecuador Operator Blok16 and Blok 67	Spain	100%	USD
New Stratus Latin America S.A.	Technical Assistance	Colombia	100%	USD
Operadora NSE Mexico S.A.	Soledad Project	Spain	100%	EUR

Intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated. Accounting policies of subsidiaries have been aligned, where necessary, to ensure consistency with the policies adopted by the Company.

NEW STRATUS ENERGY INC.**NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****For the three and nine months ended September 30, 2025, and 2024***(Unaudited: in Canadian dollars except as otherwise noted)***New accounting standards issued but not effective****IFRS 18 – Presentation and Disclosure in Financial Statements**

The IASB issued IFRS 18, Presentation and Disclosure in Financial Statements to improve reporting of financial performance. IFRS 18 replaces IAS 1, Presentation of Financial Statements.

IFRS 18 applies for annual reporting periods beginning on or after January 1, 2027. Earlier application is permitted. The extent of the impact of the adoption of this standard is currently under evaluation.

NOTE 4 – SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

Judgments, estimates and assumptions are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The significant judgments, estimates and assumptions made by management in applying the Company's accounting policies are the same as those that applied to the consolidated financial statements for the years ending December 31, 2024, and 2023.

As of September 30, 2025, other receivables include \$6.5 million (US\$4.7 million) related to compensation receivable from the Government of Ecuador. This amount pertains to a claim recognized in favor of the Company in connection with tax changes enacted during the term of the Service Contracts, which concluded on December 31, 2022. Pursuant to the tax stabilization clause included in the Service Contracts, the Company is protected against the adverse economic impact of new taxes or regulatory changes introduced during the contract period. Following the introduction of new tax measures by the Government of Ecuador during the execution of these contracts, the Company filed for compensation, which was formally recognized in 2024. Under the terms of the compensation agreement, settlement will be made through payment in kind, specifically in the form of crude oil.

NOTE 7 – RECOVERABLE TAXES

Operaciones Petroleras Soledad S. de R.L. de C.V.

On May 14, 2024, NSE entered into definitive agreements (the "Definitive Agreements") with an arm's-length vendor for the acquisition of an initial 49% equity interest in Operaciones Petroleras Soledad S. de R.L. de C.V. ("OPS"), a private Mexican oil & gas company, with the exclusive right for New Stratus to negotiate the purchase of up to an additional 41% of the equity interest in OPS, as described in further detail below (the "Acquisition").

OPS is the third-party contractor and operator of a hydrocarbons production contract awarded by Pemex Exploracion y Produccion, S.A. de C.V. ("PEP"), a subsidiary of Petroleos Mexicanos ("PEMEX") the Mexican national oil company, on the Soledad block ("Soledad

Block”) located in the State of Veracruz in eastern Mexico (the “O&G Contract”).

The acquisition of OPS has been structured into two tranches.

The first tranche, which closed on September 27, 2024, involved the purchase by New Stratus of an initial 49% equity interest in OPS. As consideration for this tranche, New Stratus (i) paid the vendor a fixed amount of US\$2 million at closing; (ii) committed to fund capital and, in certain cases, operational expenditures for OPS over the next two years under the O&G Contract, totaling US\$15 million for the first year (fully funded as of September 30, 2025) and US\$30 million for the next year (the “Commitment”) (Note 12(b)); and assumed 49% of the abandonment obligations to be fulfilled by the end of the O&G Contract in 2039, with an estimated net obligation to New Stratus of US\$9.95 million. The Commitment will be reimbursed by OPS using cashflow from operations.

According to the terms of the Definitive Agreements, effective May 1, 2024, New Stratus is entitled to economic benefits, including production revenues and cash flows, associated with holding a 49% equity interest in OPS, with these entitlements accruing in advance of the first tranche closing. With the signing of the first tranche of the Acquisition, NSE has nominated one director to the board of directors of OPS, has filled a number of technical and managerial positions of OPS, and will nominate a member of OPS in the operating committee of the O&G Contract.

The second tranche involves the purchase by NSE of up to an additional 41% of the equity interest of OPS under terms to be negotiated among New Stratus and OPS based on the results of operations on the field. For Nine months after completion of the two-year Commitment, New Stratus will have the right of exclusivity, a right of first offer and a first right of refusal, subject to regulatory approval, to negotiate the second tranche of the Acquisition.

As of December 31, 2024, the Company recorded an investment of \$26.1 million (US\$ 17.0 million) in OPS, allocated as follows:

- (1) \$21.6 million (US\$ 15.0 million) advanced to fund capital and operational expenditures under the O&G Contract for OPS.
- (2) \$2.9 million (US\$ 2.0 million) as consideration paid for the acquisition of an initial 49% equity interest in OPS and,
- (3) \$1.6 million (US\$ 1.2 million) as share of income from this joint venture operation during the year ended December 31, 2024.

During the three and nine months ended September 30, 2025, the company recognized an income of \$328,478 (US\$ 239,014) and \$1,106,946 (US\$ 791,354) respectively, in Income from investments in Joint venture (three and nine months ended September 30, 2024, \$ 972,925 (US\$ 715,176)). This amount relates to the equity pickup of the company's 49% share of the net income from OPS.

During the Nine months ending September 30, 2025, the Company also recognized an impairment loss of \$0.8 million related to foreign exchange on its advances to OPS.

For the nine months ending September 30, 2025, OPS reported a net income of \$ US\$ 1,615,008.

Desarrolladora de Oriente Oil & Gas Ltd. (DOOG)

On January 2, 2024, New Stratus announced the acquisition (the "Acquisition") of a 50% indirect interest in GoldPillar International Fund SPC Ltd. ("GoldPillar"), a private entity organized and existing under laws of the British Virgin Islands, which has acquired a 40% equity participation (the "Equity Subscription") in a joint venture company, Petrolera Vencupet, S.A. ("Vencupet"), which holds the oil production rights for the fields named "Adas," "Lido," "Limon," "Leona," "Oficina Norte" and "Oficina Central" all located onshore in the Anzoategui and Monagas States in Eastern Venezuela (the "Fields"). Petroleos de Venezuela S.A. ("PDVSA"), the Venezuelan national oil company, through its subsidiary Corporacion Venezolana de Petroleo S.A. ("CVP"), owns the remaining 60% of the share capital of Vencupet.

During the three and nine months ended September 30, 2024, the Company recognized an income of \$3,621,733 and \$4,301,502 respectively in Income from investments in Joint venture. This amount relates to the equity pickup of the company's 49% share of the net income from Desarrolladora de Oriente. As of September 30, 2024, Desarrolladora de Oriente reported a net income of \$7,969,305.

Loss on disposal of discontinued operations (Desarrolladora de Oriente Oil & Gas Ltd.)

On December 19, 2024, New Stratus Energy Inc. ("NSE" or the "Company") entered into a Termination Agreement with Franco Favilla and related parties, effectively cancelling its indirect participation in Petrolera Vencupet, S.A. ("Vencupet") and permanently waiving all associated rights and claims related to the Venezuelan joint venture operations.

The decision to terminate the Company's participation was driven by a combination of operational, financial, and strategic considerations, including:

- The inability to recover invested capital under the original contractual arrangements;
- The absence of future economic benefits from the Venezuelan operations;
- The deterioration of the investment climate for foreign investors in Venezuela; and
- The availability of alternative investment opportunities deemed more viable and strategically aligned with the Company's objectives.

In December 2024, management concluded that the continuation of operations in Venezuela was no longer feasible. Accordingly, the Termination Agreement provided for the following:

Actions by NSE:

- Transfer of its 49% interest in the share capital of Desarrolladora de Oriente Oil & Gas ("DOOG") to Franco Favilla for nominal consideration of USD 1.00.
- Irrevocable waiver of all rights to receive repayment from DOOG, Favilla, Zenith, Seasif, or Goldpillar related to prior cash disbursements.

Actions by Favilla:

- Irrevocable waiver of any rights to request further disbursements from NSE, whether pending or future.
- Assumption of full responsibility for all outstanding expenses and amounts owed to third parties.

As a result of the termination and classification of the Venezuelan operations as a discontinued operation, the Company recognized a loss of \$19.9 million for the year ended December 31, 2024. This loss reflects the difference between the carrying amount of the related investment and the consideration received, measured in accordance with IFRS 5, Non-current Assets Held for Sale and Discontinued Operations, and IAS 28, Investments in Associates.

The results of the discontinued operation have been separately presented in the consolidated statement of operation and comprehensive loss for all periods presented.

Contingency Disclosure:

In connection with a Side Letter Agreement, NSE has acknowledged a contingent obligation of up to USD 4.1 million, conditional upon the non-recovery of PDVSA receivables by Goldpillar. As at September 30, 2025, based on information available, the Company assessed that collection is probable and no provision has been recorded.

As described in Note 9, Operaciones Petroleras Soledad S. de R.L. de C.V. ("OPS"), on May 14, 2024, the Company entered into an agreement to fund capital expenditures and, in certain cases, operational expenditures for OPS under the terms of the Oil & Gas (O&G) Contract. The total commitment amounts to USD 45 million, of which USD 15 million had been advanced as at September 30, 2025. The remaining USD 30 million (equivalent to approximately CAD 41.8 million) was required to be funded by June 15, 2025, in accordance with the contractual schedule.

Currently, OPS and PEP are engaged in a negotiation process regarding a potential migration from the existing O&G Contract to a mixed contract structure under the new Hydrocarbons Sector Law. In this context, OPS has formally proposed to PEP the suspension and/or amendment of the current work program under the O&G Contract. The objective is that, during the negotiation and potential migration period, OPS would limit its activities strictly to those required to ensure the operational continuity of the contractual area, without engaging in well drilling activities. This approach envisions avoiding committing capital expenditures or incurring costs related to activities that could be substantially altered or rendered unnecessary should the migration to a mixed contract be finalized.

Under the O&G Contract, it is legally permissible to amend and/or suspend work programs, subject to Petróleos Mexicanos (PEMEX) prior approval, in accordance with the provisions of the O&G Contract. In addition, modifications or suspensions may also be justified on grounds attributable to PEMEX, or by mutual agreement between the parties.

Based on advice received from external counsel, PEMEX authorization has historically been granted in comparable contractual situations.

The commitment does not bear interest under the terms of the agreements.

During 2023, Petrolia Ecuador S.A. rehired certain employees who had been previously employed by Petrolia and whose employment had been formally terminated as of December 31, 2022. In accordance with local labor regulations, the termination followed by immediate rehire requires the recognition of continued employee entitlements, including pension rights, severance benefits, and other compensation obligations. As a result, the Company then recognized a provision of \$0.2 million, to reflect these obligations. As of September 30, 2025, the Company has terminated all its employee contracts, and this obligation has been paid in full.

- (1) On July 12, 2023, the Company announced that Consortium Block 16 had been notified of a final and definitive ruling by the National Court of Justice of Ecuador regarding a prior-year tax claim. The ruling granted the Consortium the right to obtain a tax credit of \$19.4 million (US\$14.6 million). The corresponding amount was received in cash. As a result of agreements and covenants entered by the Company during past years related to this income tax credit, the Company recognized a reserve for contractual responsibilities in the same amount refunded. As of September 30, 2025, the balance of the provision related to this reserve is \$26.3 million (US\$18.9 million) (December 31, 2024: \$ 25.4 million (US\$17.7 million)). During the three and nine months ended September 30, 2025, Petrolia accrued interests associated with this provision recognized through a comprehensive loss of \$1.9 million (US\$1.3 million) and \$0.6 million (US\$0.4 million) respectively. The Company aims to reach an amicable settlement on all the outstanding issues derived from the Service Contracts, including this refund.
- (2) As of September 30, 2025, the Company has a provision of (i) \$2.3 million (US\$ 1.6 million) related to the 2016 Solidarity Contribution Tax trial. NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended September 30, 2025, and 2024

(Unaudited: in Canadian dollars except as otherwise noted)

Warrants:

As part of the July 30, 2021, financing, the Company issued 16,095,376 warrants valued at \$186,776. Each warrant will entitle the holder to purchase one common share at an exercise price of \$0.45 until the second anniversary of the warrant issuance. For accounting purposes, the Company uses the Black-Scholes valuation methodology to value the warrants at the date of issuance. The significant inputs into the model were a share price of \$0.32, an exercise price of \$0.45, volatility of 70%, a dividend yield of 0%, an expected warrant life of two years and an annual risk-free interest rate of 0.45%. Volatility was estimated based on the average volatility of a sample of peer companies with available public pricing data.

Stock-based compensation:

The Company has a stock option plan for employees, officers, directors and consultants (the "Plan"). The Company uses a Black-Scholes valuation methodology for accounting purposes to value the stock options at the award date. The maximum number of stock options reserved for issuance under the plan may not exceed 10 percent of the number of common shares issued and outstanding.

On September 4, 2024, the Company granted an aggregate of 1,800,000 stock options to employees of its subsidiaries under the Company's Plan. The options are exercisable at \$0.46 for five years and fully vested on the issuance date. The fair value of each option was estimated on the date of the grant using the Black-Scholes option pricing model, with the following assumptions: expected dividend yield of 0%, expected volatility of 70%, risk-free interest rate of 2.86%, and an expected average life of 5 years. The fair value of all these options was estimated at \$494,185.

The following schedule describes the stock-based compensation transactions as of September 30, 2025:

	Number of Stock Options	Weighted average Exercise price	Fair value

NOTE 21 – FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Given the short-term nature of these financial instruments, the carrying values of cash, other receivables, trade payables, and other payables approximate their respective fair values as of September 30, 2025, and September 30, 2024.

The Company's financial instruments have been assessed in accordance with the fair value hierarchy outlined in IFRS 13, Fair Value Measurement. This hierarchy categorizes financial instruments into three levels based on the significance of the inputs used in measuring fair value:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly;

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of September 30, 2025, and December 31, 2024, all of the Company's financial instruments were classified as Level 1 or Level 2 in the fair value hierarchy. No financial instruments were classified as Level 3 during these periods.

No financial instruments were transferred between Levels 1, 2, or 3 during the three and nine months ended September 30, 2025, and 2024. Assessing the significance of a particular input to fair value measurement requires management's judgment, and such judgment may affect the instrument's placement within the fair value hierarchy.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended September 30, 2025, and 2024

(Unaudited: in Canadian dollars except as otherwise noted)

Market Risk

Market risk is the risk that changes in market factors, such as commodity prices and foreign exchange rates, will affect the Company's cash flows, profit or loss, liquidity, or the value of financial instruments. Market risk management aims to mitigate appropriate market risk exposures and maximize returns.

Commodity Price Risk

Commodity price risk is the risk that a financial instrument's fair value or future cash flows will fluctuate due to changes in commodity prices. Lower commodity prices can also impact the Company's ability to raise capital. World economic events that dictate the supply and demand levels affect crude oil prices. From time to time, the Company may attempt to mitigate commodity price risk by using financial derivatives.

The Company had no commodity contracts between September 30, 2025, and December 31, 2024. Since the termination of its service contract on December 31, 2022, the Company has not generated revenue for the three and nine months ended September 30, 2025.

Foreign Currency Risk

The foreign currency risk is the risk that a financial instrument's fair value or future cash flows will fluctuate due to changes in foreign currency exchange rates. The Company is exposed to foreign currency fluctuations as certain expenditures are denominated in Colombian pesos and US dollars. As of September 30, 2025, the United States dollar to Canadian dollar exchange rate was 0.7183:1 (December 31, 2024 – 0.6950:1). A 1% change in the exchange rate would not generate a material impact in the Company's US dollar Cash balances held at September 30, 2025. The Company had no forward exchange rate contracts in place as at September 30, 2025 or during the three and nine months ended September 30, 2025 and 2024. Accounts payable in USD balance as of September 30, 2025, was \$31.6 million, and a change of 1% in the exchange rate would have impacted the Canadian dollar equivalent by +/- CAD \$0.4 million.

Liquidity Risk

Liquidity risk is the risk that the Company will not meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to ensure, as far as reasonable, that it will have sufficient liquidity to meet its liabilities when due, without incurring unacceptable losses. As at September 30, 2025, the Company has a working capital deficit of \$45.3 million (2024 – Deficit of \$38.2 million) which includes \$0.8 million (2024 – \$0.75 million) of financial assets comprised of cash and restricted cash, trade, other receivables and deposits of \$7.3 million (2024 – \$8.3 million), and of financial liabilities comprised of trade and other payables, loan commitments, taxes payable, benefits obligations and assets retirement obligations with a contractual maturity of less than one year of \$53.4 million (2024 – \$46.5 million). During the nine months ended September 30, 2025, the Company reported net cash used in operating activities in the amount of \$0.6 (2024 \$10.5 million). The Company prepares operating and capital expenditure budgets which are regularly monitored and updated as considered necessary.

NOTE 22 – RELATED PARTY TRANSACTIONS

During the three and nine months ended September 30, 2025, and 2024, the transactions accrued or paid for services provided to directors and officers were as follows:

Period ended September 30,	Three months		Nine months	
	2025	2024	2025	2024
Officers and management fees	\$ 591,871	\$ 581,388	\$ 1,794,832	\$ 2,465,879
Consulting fees accrued or paid to a director	58,469	57,835	173,700	185,618
	\$ 650,340	\$ 639,223	\$ 1,968,532	\$ 2,651,497

All the above transactions are in the ordinary course of operations and are measured at fair value, which is the price agreed upon by the related parties. The services provided by directors and officers during the three and nine months ended September 30, 2025, remain unpaid as of that date and have been fully accrued. (Note 11a.2)

On August 23, 2023, the Company and its Chief Midstream and Downstream officer agreed to terminate the original Officer's contract, signed on February 1st, 2022. As compensation for bridging the original agreement, the Company agreed to repay the departing officer US\$151,500, payable in twelve equal quarterly installments of US\$12,625. The departing officer will continue to act as an independent business development consultant for a monthly fee of US\$10,000.

NEW STRATUS ENERGY INC.**NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****For the three and nine months ended September 30, 2025, and 2024***(Unaudited: in Canadian dollars except as otherwise noted)***NOTE 23 – CAPITAL MANAGEMENT**

The Company's objective when managing capital is to ensure that it has sufficient cash resources to maintain financial liquidity and flexibility, provide returns for shareholders and benefits for other stakeholders, and deploy capital to explore its properties further.

The Company's financial strategy is designed to maintain a flexible capital structure consistent with the objectives stated above and to respond to business growth opportunities and changes in economic conditions. To maintain or adjust its capital structure, the Company may, from time to time, issue new shares, issue new debt (secured, unsecured, convertible and other types of debt instruments), acquire or dispose of assets or adjust its capital spending to manage its ability to continue as a going concern.

The Company is not subject to externally imposed capital requirements, and the overall capital risk management strategy did not change During the three and nine months ended September 30, 2025 and 2024.

NOTE 25 – COMMITMENTS AND CONTINGENCIES**COMMITMENTS****Block VMM-18**

Under the terms of the agreement executed concerning the VMM-18 E&P contract, The Company was required to fund an exploration commitment for the second phase of the VMM-18 E&P Contract. As per the contract and a recent extension by ANH, The Company was required to perform and drill an exploration well valued at \$4,063,200 (US\$3,000,000). All activities that NSE committed were completed except for the drilling of the exploratory well.

Due to significant financial and operational constraints imposed by the exploration area granted to the Company, on September 26, 2022, the Company submitted a request to the ANH to mutually agree to terminate the exploration and production contract for Block VMM-18. In response, ANH asked for confirmation of the restrictions imposed on the exploration area. The Company provided the requested documentation on March 9, 2023. On May 31, 2024, the ANH issued a formal termination of the Agreement relieving the Company of any further obligations of the Project.

Energy Perú S.A.C.

New Stratus, in its capacity as guarantor, and Banco BTG Pactual S.A. – Cayman Branch (“BTG”) entered into an irrevocable corporate guarantee dated December 2, 2024 (the “Guarantee Agreement”) pursuant to which New Stratus agreed to guarantee to BTG the punctual payment and discharge of all Obligations from time to time incurred by Altamesa Energy Peru S.A.C., under or in connection with the a bond issued up to US\$940,930.27. As per the Guarantee Agreement, upon the bond becoming due, BTG shall first require payment to Altamesa Energy Peru S.A.C. Only if full payment is not made within three (3) business days of such requirement, BTG may proceed against and enforce any other rights or security or claim payment from New Stratus under the Guarantee Agreement. On December 20, 2024 the bond became due, and on January 29, 2025 BTG required payment of all pending obligations under the bond to Altamesa Energy Peru S.A.C. As of September 30, 2025, BTG has not received any payments from Altamesa Energy Peru S.A.C pursuant to the bond. New Stratus and BTG are currently discussing the payment terms of this commitment.

Consulting agreements

The Company is obligated under a consulting agreement for US\$10,000 per month until May 31, 2026. (Note 22)

Executive compensation

On July 1, 2021, the Company entered into employment agreements with its senior executives, which contain clauses requiring additional payments of up to US\$3,390,000 upon the occurrence of certain events, such as a change of control. As these triggering events have not occurred, these Financial Statements have not provided contingent payment.

CONTINGENCIES

State Oil Company of Ecuador Petroecuador EP

Shushufindi Agreement: As recommended by the Comptroller General’s Office, within the special examination of the contracting process and development of the cooperation agreement with Petroproduccion to increase crude oil production and reserves in the Shushufindi field, EP Petroecuador issued invoices for \$4,090,186 (US\$3,013,240) and initiated an enforceable by law collection process, proceeding to seize the invoiced amount. The Branch has challenged the procedures initiated by Petroproducción. The Company has made a provision for this matter.

Law 122: Ecuador Petroecuador EP (“Petroecuador”) is requesting the payment of \$22,547,423 (US\$16,610,743) to the consortium that operated Block 67 (Tivacuno) where the Company has a 35% interest. On August 14, 2023, a payment request was issued based on a unilateral liquidation performed by Petroecuador under a service contract which ended in 2010, stating that Petroecuador has not withheld the entire tariff of the tax contemplated in Law 122. The Company has challenged such payment requests before the Tax Court, stating that the statute of limitations to request such payment has been largely exceeded. On September 19, 2024, Petroecuador initiated a coercive procedure to collect this contingency with interest. On October 4th, Petroecuador, based on the information provided by Petrolia, cancelled the coercive procedure. The Company has not recorded any provision in the financial statements.

Auca Process, Yulebra, Culebra: EP Petroecuador claims payment of \$1,387,307.59 (US\$1,022,033) for information provided to REPSOL within a failed bidding process called by EP Petroecuador. REPSOL paid the cost of the bidding conditions, which included access to the “data room” and all the information available for this purpose. After several judicial resolutions (both from the Superior Court and the National Court of Justice), the process must be sent to the District Court of Administrative Disputes in the Metropolitan District of Quito for resolution. However, the request was denied. The Company has filed an extraordinary protection action before the Constitutional Court, which has not been admitted yet. During the year ended December 31, 2022, a prepaid balance of \$1.4 million was written off. The Company has not recorded any provision in the financial statements.

Special Examination Reports of the Comptroller General's Office

Friction Reduction Chemicals: On May 31, 2005, the Office of the Comptroller General of the State issued audit assessments against the contractor of the Block 16 participation contract for \$3,500,208 (US\$2,578,612) for the purchase and use of friction reducing chemical, of which \$1,225,073 (US\$902,514) corresponds to the Company. On November 23, 2006, Petrolia’s Branch, on behalf of the contractor filed a challenge before the Contentious Administrative Court.

Solidarity Contribution tax trial

On October 7, 2019, the Internal Revenue Service of Ecuador requested two additional payments on the denominated solidarity contribution on profits, created by the Organic Law of Solidarity and Citizen Co-responsibility. The Internal Revenue Service requested two additional payments totaling \$2,172,764 (US\$1,653,441), including principal, interest and penalties. The Company has challenged such payment requests and currently the matter is being discussed at the Tax Court and at the National Court of Justice in Ecuador. The Company has recorded a provision for the above-mentioned matter.

NEW STRATUS ENERGY INC.
NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
For the three and nine months ended September 30, 2025, and 2024
(Unaudited: in Canadian dollars except as otherwise noted)

Based on a final and definitive ruling from the National Court of Justice, one of the additional payment requests was resolved favorably for the Company. Therefore, a reversal on the provision was recorded for \$0.19 million (US\$0.14 million). As of September 30, 2025, the reserve for this contingency is \$2.0 million (US\$1.5 million).

NOTE 26 – SEGMENTED INFORMATION

The Company's reportable segments are consistent with the Company's geographic regions in which the Company's projects are located. The Company, through its operating segments, is engaged primarily in oil exploration, development and production, and the acquisition of oil and gas properties. The Canadian segment is also considered the corporate segment. The Company has four reportable operating segments: Mexico, Ecuador, Colombia, and Canada. The following table shows the Company's reportable segments and its geographic location:
